OJO MUYIWA ISREAL

Data & Business Intelligence Analyst

muyiwaojo33@gmail.com | 07030874232 | Lagos, Nigeria | github.com/MuyiwaIsreal | linkedin.com/in/muyiwa-isreal-o

PROFESSIONAL SUMMARY

Data & Business Intelligence Analyst with 4+ years turning complex financial, transactional, and operational data into clear business decisions. Built 40+ Power BI dashboards, including real-time payment collection and disbursement tracking, and self-hosted Mage ETL pipelines that consolidate 600+ data sources into analytics-ready tables. B.Sc. Statistics graduate with strong SQL (PostgreSQL, MySQL) and Python skills, and a track record of KPI work that contributed to a 20% gain in operational efficiency. Ready to bring this experience to a fast-growing payments business.

CORE COMPETENCIES

Data Analysis & Insights | Power BI Dashboard Development | Data Integration & ETL (Mage) |
KPI Design & Performance Monitoring | Data Quality & Validation | Data Modelling (SQL) |
Stakeholder Reporting & Presentation | Reporting Automation

PROFESSIONAL EXPERIENCE

Data & BI Analyst | **Venco Platform Ltd (PropTech SaaS)** | Oct 2024 – Present | Lagos, Nigeria | Remote-enabled

- Built and maintain 40+ interactive Power BI dashboards (alongside Frappe Insights and Metabase) covering Finance & Revenue, HR & Payroll, Inventory & Supply Chain, CRM & Sales, and Operational KPIs, used daily by executives, finance, and operations teams.
- Built collection and disbursement tracking dashboards giving finance real-time visibility into tenant payment inflows, vendor disbursements, and cash position across the platform.
- Designed and manage self-hosted Mage ETL pipelines with the IT/dev team, consolidating 600+ data sources into a central reporting database, with the largest table growing by ~50K rows daily; built optimised summary tables that automate report refreshes and cut query load on production databases.
- Defined, implemented, and monitored KPIs across business units, surfacing performance gaps that contributed to a 20% increase in operational efficiency.
- Administered ERPNext across Accounts, HR & Payroll, Inventory, CRM/Sales, and Projects, ensuring data integrity, workflow automation, and consistent data standards across departments.
- Designed and maintained relational databases (PostgreSQL, MySQL) with schemas optimised for analytical queries on large transactional datasets.
- Ran deep-dive analyses on customer behaviour, product performance, and supply chain data, presenting findings and recommendations to executives; coordinated cross-functional delivery with Operations, IT, and Finance.

Data Analyst & Business Analyst | **New Horizon System Solutions** | Aug 2023 – Aug 2024 | Lagos, Nigeria

- Developed Power BI, Tableau, and Excel dashboards that presented complex findings clearly to non-technical client stakeholders.
- Ran data quality assessments and remediation plans, improving accuracy, consistency, and completeness across client datasets.
- Designed data models and applied statistical techniques to support analysis across clients' operations, sales, and finance functions.
- Analysed client workflows to find process bottlenecks, producing recommendations that measurably improved turnaround times.
- Translated business requirements into analytical specifications and worked with IT teams to deliver on schedule.
- Built and maintained client databases, ensuring reliable storage, retrieval, and integrity across monthly reporting cycles.

Freelance Data Analyst | **Fiverr** | Sep 2022 – Jul 2023 | Remote

- Cleaned, restructured, and standardised messy Excel datasets for clients, fixing errors, removing duplicates, and preparing data for analysis and reporting.
- Delivered statistical analysis for student research projects, from data preparation to interpreting results and presenting clear, plain-language findings.
- Managed client requirements, deadlines, and revisions end to end as an independent freelancer.

TECHNICAL SKILLS

- **BI & Visualisation:** Power BI (DAX, data modelling), Tableau, Frappe Insights, Metabase, Advanced Excel
- **Languages:** SQL (PostgreSQL, MySQL), Python (pandas, NumPy, scikit-learn)
- **Data Integration:** Mage (self-hosted) ETL/ELT, multi-source consolidation, summary table design, data warehousing, query optimisation
- **Automation:** Microsoft Power Automate (workflow and business process automation)
- **Data Quality:** data quality assessments, validation, remediation, documentation of reporting processes
- **Analytics:** statistical analysis, KPI design, forecasting, predictive modelling, trend analysis
- **Systems & Tools:** ERPNext (all core modules), Jira, Asana, Trello, Frappe Office, Microsoft Office Suite

PORTFOLIO & PROJECTS

Live portfolio: github.com/MuyiwaIsreal

- **PropTech BI Dashboard Suite (anonymised):** multi-module Power BI system built on ERPNext and Mage pipeline data, covering Finance, HR, and Operational KPIs, with data model, DAX measures, and pipeline architecture.
- **Mage ETL Pipeline – ERP Summary Tables:** documentation of a self-hosted pipeline consolidating large ERPNext transactional tables into analytics-ready summary tables.
- **Python & SQL Analytics Projects:** exploratory analysis, data cleaning notebooks, and statistical modelling with pandas, NumPy, and scikit-learn.
- **Power BI Dashboard Gallery:** interactive Finance, CRM, HR, and Operational reporting samples.

EDUCATION

B.Sc. Statistics | Ekiti State University, Ado-Ekiti | 2023
Relevant coursework: Statistical Modelling, Probability Theory, Regression Analysis, Research Methods, Data Structures

CERTIFICATIONS

- Data Analysis Certification – New Horizon System Solutions (2022)
- ICT Fundamentals – New Horizon System Solutions (2021)
- In progress: Microsoft Power BI Data Analyst (PL-300); Google Data Analytics Professional Certificate
